Web Developer (MERN Stack)

The islamia University Of Bahawalpur — **February 2025**
BACHELOR OF BS ARTIFICAL INTELLEGENCE — **CGPA - 3.43**

Technical Skills

Programming Languages : JavaScript (ES6+), TypeScript, Python (Intermediate)
Web Technologies: HTML, CSS, Bootstrap, Tailwind CSS, React.js, Next.js, Redux Toolkit, Node.js, Express.js
Platforms: Windows, Linux, macOS
AI/ML: Experience with LLM models, AI tools integration
Developer Tools: VS Code, Git, GitHub, Postman, Docker
Database: MongoDB, SQL, Firebase

Experience

Connect Solution Garden Town Lahore — **Python** — **2 Month 2024**

AI Integration

- Worked with Large Language Models (LLMs) to integrate AI tools into web applications.
- Developed AI-based features such as text extraction, summarization, and content generation.
- Explored and implemented AI tools to improve user experience and automate tasks.

E-KHAT Arfa Software Technology Park — **Present**

Web Developer **(MernStack)**

- Developed and maintained web applications using the MERN stack.
- Collaborated with cross-functional teams to design and implement new features.
- Integrated third-party APIs and AI tools to enhance application functionality.
- Optimized application performance and ensured responsive design across devices.
- Technologies Used: React.js, Node.js, Express.js, MongoDB, Redux Toolkit, Tailwind CSS.

Projects

Grocery Store Calculator

- A React-based web app for calculating grocery costs.
  https://github.com/Jawa090/update-grocery-cal

Project Manager

- A powerful project management app built with React, Redux Toolkit, and Redux Persist. This app allows users to create, update, and track projects seamlessly, with real-time data management powered by Redux. Key features include adding tasks, setting deadlines, assigning team members, and tracking project status. Redux Persist ensures that all data is saved and accessible even after refreshing the page, providing a smooth and reliable user experience. Technologies Used: React for the UI, Redux Toolkit for state management, and Redux Persist for data persistence. This app is ideal for practicing advanced React and Redux concepts while creating a practical tool for managing projects efficiently.

PDF Summarizer, Image Tool, PDF Tool

- Developed a PDF Summarizer tool using the MERN stack to extract and summarize key information from PDFs.
- Integrated AI-based text extraction and summarization using NLP techniques.
- Features include PDF upload, text extraction, summarization, and user data storage.
- Technologies: React.js, Node.js, Express.js, MongoDB, Tesseract.js, AI/NLP models.
- Built an Image Tool for image manipulation (conversion, compression, resizing, cropping, rotation).
- Integrated OCR for text extraction from images using Tesseract.js.
- User-friendly interface with React.js and Material-UI.
- Technologies: React.js, Node.js, Express.js, MongoDB, Sharp.js, Tesseract.js.
- Created a PDF Tool for managing PDFs (conversion, compression, merging, splitting, watermarking).
- Integrated OCR for text extraction from PDFs using Tesseract.js.
- Responsive UI built with React.js and Bootstrap.
- Technologies: React.js, Node.js, Express.js, MongoDB, PDF-lib, Tesseract.js.
